All industries require **"tools of the trade"**: essential for any professional! For a florist, it is vital that you are armed with a right tools, especially when working on site and away from your studio or workshop. You don't want to arrive without an essential piece of equipment and waste valuable time returning for a missing item!

You may also need to consider basic workshop or studio equipment or onsite tools. Don't forget to **"top up"** your tool kit with anything you may have used up or need replacing on a regular basis to avoid any stress!

NOTES
